

# HOW TO RE-ATTACH HARD DISK

Menu screen on monitor

**Step 1:** Press "MENU" button on DVR

System Page on monitor

**Step 2:** Press **“ENTER”** button on DVR to go to **System Page**

## Change the “Date/Time”

**Step 1:** Select “Time” by pressing “►” arrow button

**Step 2:** Change the date or time by pressing “▲/▼” arrow button

**Step 3:** Select "Disk" by pressing ► arrow button.

- Step 4:** Select "Disk Manager" by pressing ▼ arrow button
- Step 5:** Press "ENTER" button on DVR

**Step 6:** Press "ENTER" button to select under **Enabled**.

**Step 7:** Press "◀/▶" arrow to select **Yes** or **No**.

1. If your HDD is detached, it will say No under Enable. Then to Enable the HDD, you will need to click ENTER while you highlight the No, then on the pop up window, click Yes. And it'll give you this message... etc
2. If you want to reset your HDD, if it says Yes under Enable, click.... (ask them to disable it by making it No, and then re-enable it by making it yes)

**Step 8:** When done, press "ESC" button with multiple times to exit all windows and go back to normal camera display on monitor.
